

IPPC Question Bank Audit Report - V134

Formatting repair of the V132 report. Question-bank content remains unchanged from the clean V130/V131 baseline.

Current production baseline V134 formatted report + website update

This version rebuilds the audit report layout for better spacing, larger tables, clearer charts, and safer page margins. The report reflects the same clean question-bank baseline and the existing website/progress updates; no question content was changed in this patch.

FINAL QA STATUS

0 / 0 / 0 / 0

Critical / high / medium / low flags

QUESTION BANK

2,000

25 sets x 80 questions

ANSWER BALANCE

Exact

500 each A/B/C/D

CLO BLUEPRINT

Exact

300 / 900 / 800

REPORT LAYOUT

Rebuilt

Readable tables and cards

Scope note

Automated audit checks structure, distribution, wording, duplication, answer balance, UI/report references and build readiness. It does not replace manual legal/regulatory proofreading against official source materials and any later regulator updates.

Audit scorecard

A clean visual summary of the current status after the formatting repair.

CRITICAL FLAGS

0

No broken data or blocking issues.

HIGH FLAGS

0

No major structural issues.

MEDIUM FLAGS

0

No residual audit flags.

LOW FLAGS

0

No minor audit flags.

Area	Status	Comment
Question count	Pass	2,000 questions retained across 25 sets.
Answer balance	Pass	Overall balance is 500 A / 500 B / 500 C / 500 D.
Per-set answer split	Pass	Every set keeps 20 A / 20 B / 20 C / 20 D.
CLO blueprint	Pass	Full bank and per-set CLO split align to 15% / 45% / 40%.
Repetition checks	Pass	Previously listed repeated answer, Roman-statement, stem and calculation issues remain closed.

Formatting repair note

V134 focuses on report readability: large cards, split long tables, more white space, clearer section hierarchy, and no cramped text boxes.

Official exam blueprint alignment

The app is structured around the IPPC assessment format and module weighting.

EXAM DURATION

2 hours

Timed mock mode uses 7,200 seconds.

EXAM FORMAT

80 MCQs

Generated mocks draw exactly 80 questions.

PASS MARK

70%

Results use pass/fail threshold.

PER MOCK SPLIT

12 / 36 / 32

15% / 45% / 40%.

CLO	Area	Target %	Per 80-Q mock	Full bank count
CLO1	Malaysian financial system	15%	12	300
CLO2	Regulations and guidelines	45%	36	900
CLO3	Debt securities and structured products	40%	32	800

Implementation result

Every generated mock uses the 12 / 36 / 32 blueprint. Across the full 2,000-question bank, the CLO distribution is 300 / 900 / 800, matching the 15% / 45% / 40% weighting exactly.

Question-bank composition

2,000 questions remain intact after the website and report update.

- CLO1
- CLO2
- CLO3

Question style

Scenario-based		771
Recall		609
Statement-combination		378
Calculation		242

Difficulty

Hard		1320
Medium		441
Easy		239

SETS

25

Normal 1-20; Hard 21-25

STATEMENT COMBO

378

Roman numeral questions

CALCULATION

242

Balanced A/B/C/D subset

FLASHCARDS

397

Acts, rules and penalties

Answer distribution and cueing

The bank keeps exact answer balance at both global and per-set levels.

Answer	Full bank	Per set target
A	500	20
B	500	20
C	500	20
D	500	20

Correct answer distribution

Audit conclusion

- Overall correct-answer balance is exactly 500 A / 500 B / 500 C / 500 D.
- Every set keeps 20 A / 20 B / 20 C / 20 D.

Calculation subset audit

Calculation answers are no longer duplicated or skewed.

Answer	Calculation count
A	61
B	61
C	60
D	60

Calculation correct answer distribution

Calculation checks cleared

- Duplicate numeric answers inside a calculation question: 0.
- Repeated full calculation answer sets: 0.
- Repeated calculation correct-answer texts: 0.
- Calculation answer letters are near-even: A 61 / B 61 / C 60 / D 60.

Roman numeral / statement-combination audit

The audit checks actual I / II / III / IV statements, not just answer combinations.

Check	Result
Roman questions	378
Duplicate full statement blocks	0
Repeated individual statements	0
Duplicate statements inside same question	0
Repeated answer combinations	Ignored as normal MCQ structure

Why this matters

- Repeated combinations such as I, II and III only are normal. The quality risk is repeated actual statements.
- V134 preserves the zero-repeat status for Roman-statement blocks and individual Roman statements under the project audit logic.

ROMAN QS

378

Statement-combination style

STATEMENT REPEATS

0

Actual I/II/III/IV text

BLOCK REPEATS

0

ANSWER COMBOS

Allowed

Normal MCQ pattern

Duplication and wording quality

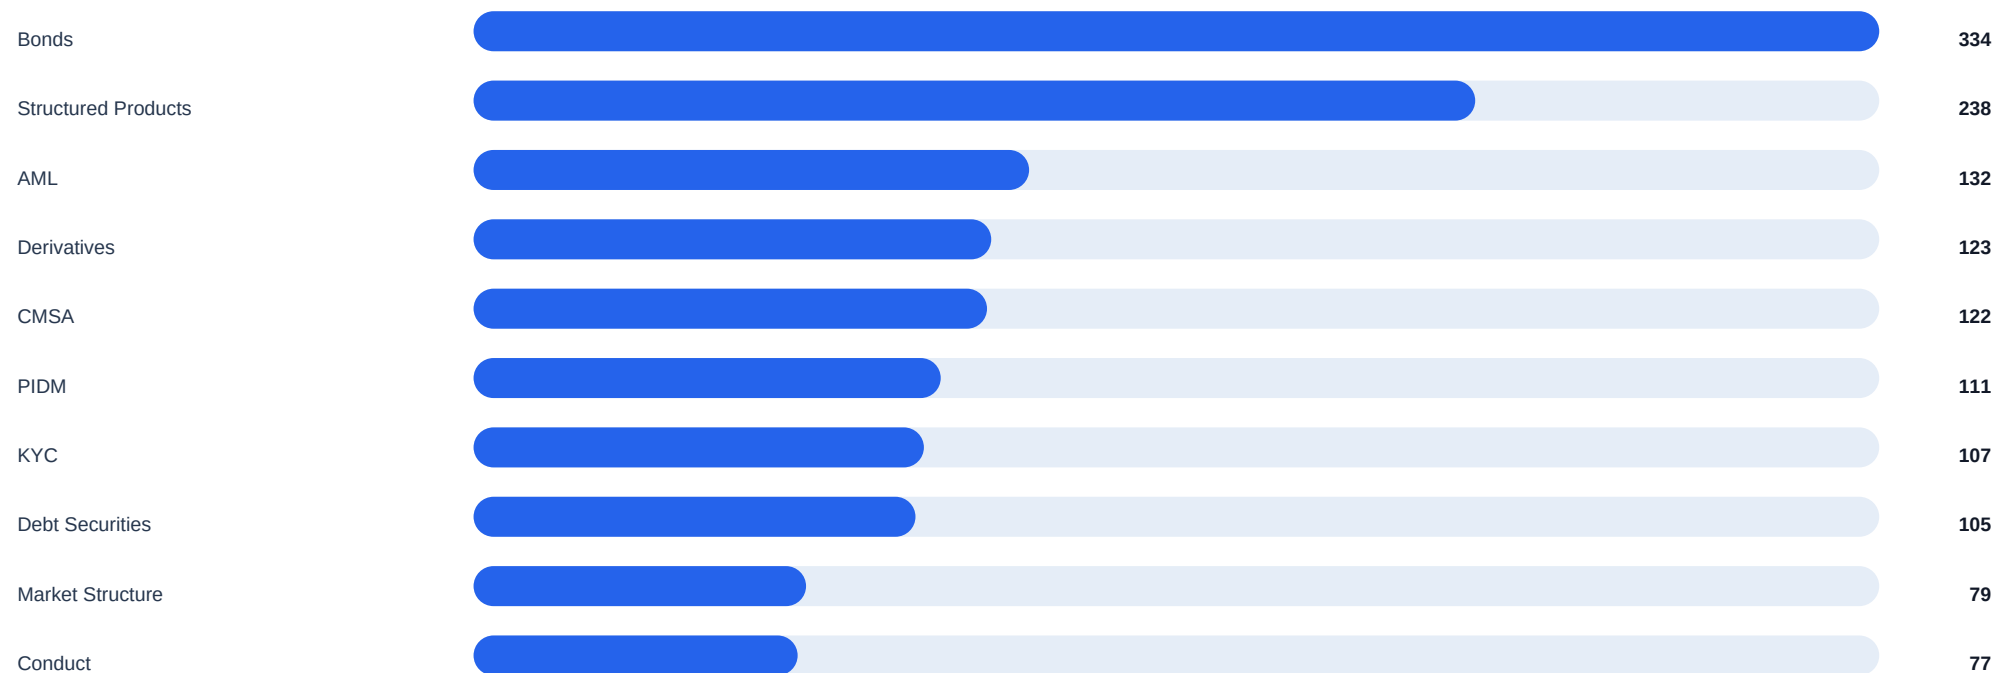

Previously listed repetition issues remain closed.

Audit item	Result
Exact duplicate stems	0
Exact duplicate question + options	0
Duplicate answer options inside same question	0
Non-Roman repeated full answer sets	0
Non-Roman repeated correct-answer text	0
Calculation repeated answer sets	0
Generic phrase: the option that fits	0
Target phrase: A candidate is asked	0
Target phrase: rather than recall	0
Target phrase: exam-style revision	0

Topic coverage profile - major topics

The largest topic buckets are monitored so coverage remains broad after cleanup work.

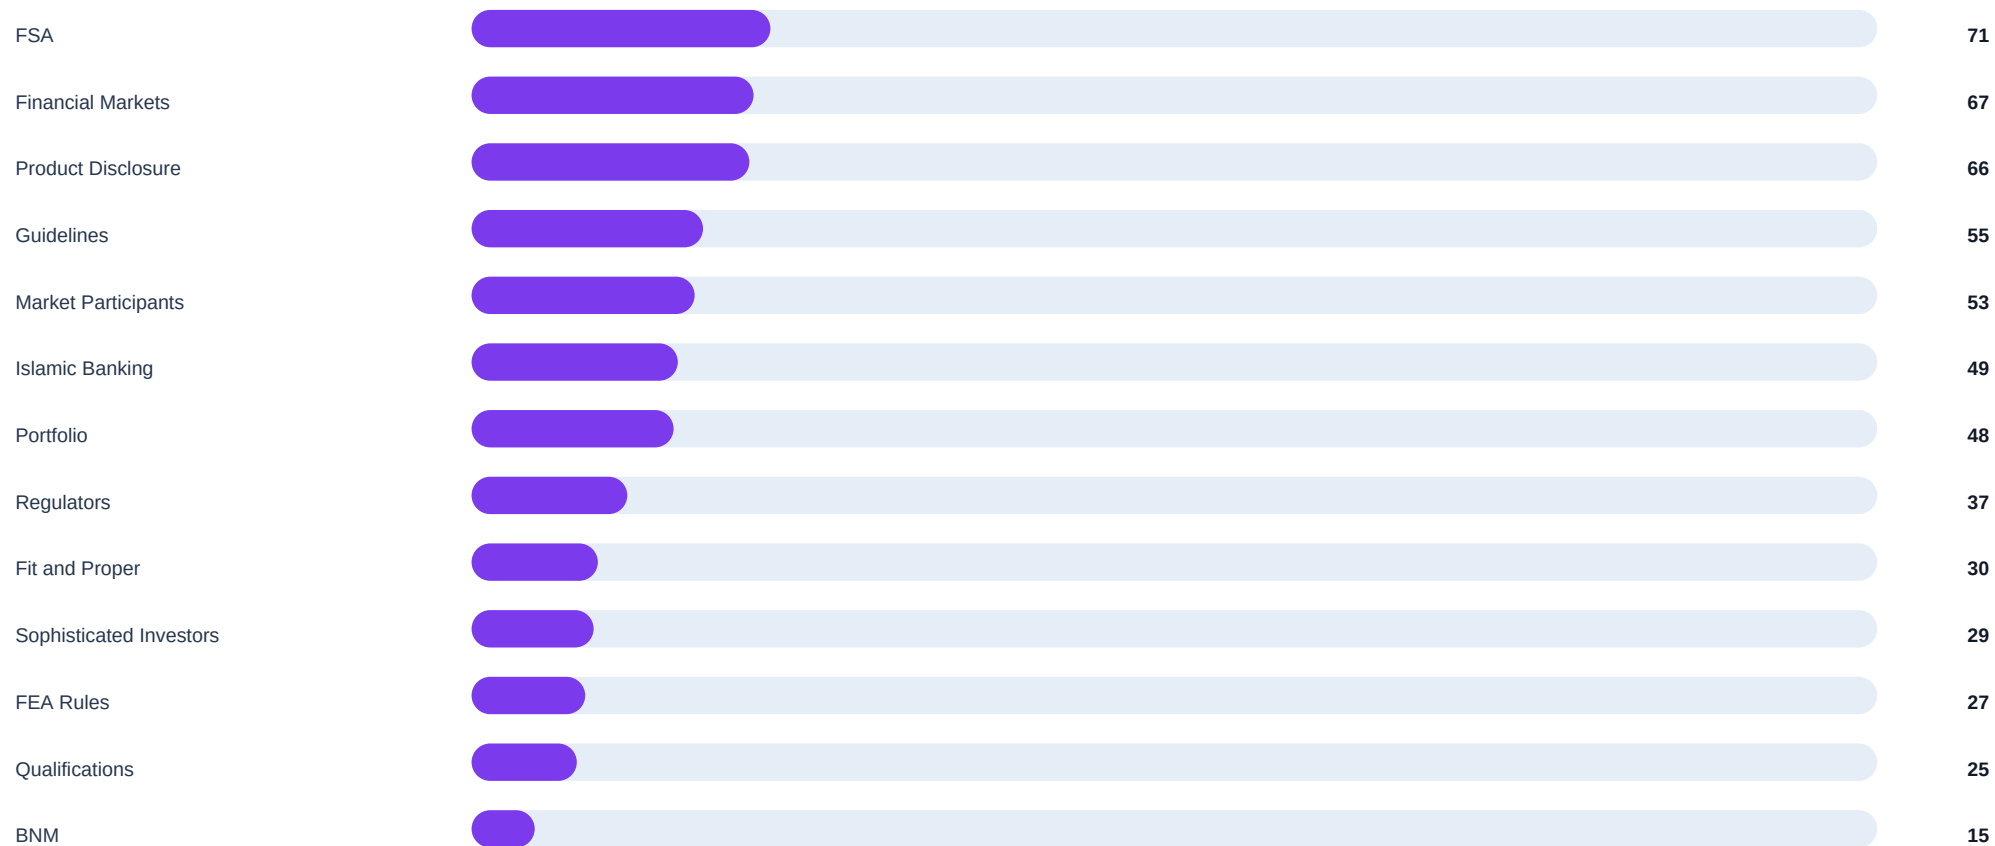

Top 10 topics by question count

Topic coverage profile - remaining topics

Secondary topic buckets remain visible without crowding the chart.

Remaining topics by question count

Per-set answer balance

Every 80-question set keeps 20 correct answers per option letter.

Set	A	B	C	D	Status
1	20	20	20	20	Pass
2	20	20	20	20	Pass
3	20	20	20	20	Pass
4	20	20	20	20	Pass
5	20	20	20	20	Pass
6	20	20	20	20	Pass
7	20	20	20	20	Pass
8	20	20	20	20	Pass
9	20	20	20	20	Pass
10	20	20	20	20	Pass
11	20	20	20	20	Pass
12	20	20	20	20	Pass
13	20	20	20	20	Pass
14	20	20	20	20	Pass
15	20	20	20	20	Pass
16	20	20	20	20	Pass
17	20	20	20	20	Pass
18	20	20	20	20	Pass
19	20	20	20	20	Pass
20	20	20	20	20	Pass
21	20	20	20	20	Pass
22	20	20	20	20	Pass
23	20	20	20	20	Pass
24	20	20	20	20	Pass
25	20	20	20	20	Pass

Per-set CLO control - Sets 1 to 13

Long tables are split across pages to avoid the cramped V132 layout.

Set	CLO1	CLO2	CLO3	Status
1	12	36	32	Pass
2	12	36	32	Pass
3	12	36	32	Pass
4	12	36	32	Pass
5	12	36	32	Pass
6	12	36	32	Pass
7	12	36	32	Pass
8	12	36	32	Pass
9	12	36	32	Pass
10	12	36	32	Pass
11	12	36	32	Pass
12	12	36	32	Pass
13	12	36	32	Pass

TARGET SPLIT
Per 80-question mock

12 / 36 / 32

Per-set CLO control - Sets 14 to 25

Second half of the blueprint table with the same readable sizing.

Set	CLO1	CLO2	CLO3	Status
14	12	36	32	Pass
15	12	36	32	Pass
16	12	36	32	Pass
17	12	36	32	Pass
18	12	36	32	Pass
19	12	36	32	Pass
20	12	36	32	Pass
21	12	36	32	Pass
22	12	36	32	Pass
23	12	36	32	Pass
24	12	36	32	Pass
25	12	36	32	Pass

Result

- All 25 sets follow the intended CLO split. This reduces topic-weighting drift when users practise by set rather than across the full bank.

Website and UI update status

The website now points to the formatted V134 report and current project baseline.

Area	Status
Main report card	Updated to V134 Audit Report
Embedded PDF path	IPPC_Question_Bank_Audit_Report_V134.pdf
About website title/meta	Updated to V1 to V134
About website back button	Present and linked back to the main menu
Progress page	Single Saved Progress block with expandable detailed history
History records	New attempts store set, topic, CLO, selected/correct answers and flags

Compatibility note

Older saved attempts remain readable. Full question-level history appears for attempts saved from V131 onwards.

Build and package validation

The final package remains Vercel-ready; page 15 cards are spaced to avoid text overlap.

Validation item	Status
npm ci	Passed during V134 package build
npm run build	Passed during V134 package build
questions.packed.json / .gz	Matched before package build
node_modules	Excluded from ZIP
dist	Excluded from ZIP
Minimum Vercel files	index.html, package files, vercel.json, src/, public/

What changed in this update

- Rebuilt the report layout from V132 to V134 with larger text, split long tables, clearer charts and safer spacing.
- Updated the main website report labels and embedded PDF path to the V134 report.
- Updated the About website title/meta/bundled text to V1 -> V134 while preserving the back button.
- Question-bank data was not altered in this patch.

Manual caveat

- The automated audit confirms structural, duplication, distribution, wording and build checks. Before using the materials for real licensing preparation, a human should still spot-check legal/regulatory facts against official IPPC text and any latest regulator updates.
